

## Newsletter May 2010

Dear Ladies and Gentlemen,  
we like to inform you that we are shipping now two new products.

### HartDLL 7.0 (Hart Master/Slave DLL)

We are providing a new version of the HART tools Software to be used with all windows versions (including Windows 7) and all versions of HART communication implementations including the support of all universal functionality in Hart 5, Hart 6 and Hart 7.

If you like to download a **free trial version** please point your browser to:

<http://borst-automation.com/Hart-Tools/HartTools70setup.exe>.

If you like to have a look into the **user's manual** please use the path:

<http://borst-automation.com/manuals/HartDLL70.pdf>.

You can also get a **printable quotation** via:

<http://borst-automation.com/quotations/QuotationHartDLL.pdf>.

### TinyHartDLL 7.0

This is a low cost version of the Hart Communication driver DLL mentioned above. It has a reduced functionality compared to HartDLL 7.0. A list of the properties and functionality is contained in the **quotation** for the product:

<http://borst-automation.com/quotations/QuotationTinyHartDLL.pdf>.

You may have also a look into the **user's manual** by pointing your browser to the following path:

<http://borst-automation.com/manuals/TinyHartDLL.70.pdf>.

If you like to test the software you may download a **trial version**, which is free of charge, from:

<http://borst-automation.com/downloads/TinyHartDLL7.0.zip>.

### Free Capacity

In the second half of 2010 we have still free capacity for direct work (development, design, test) in customer projects. If you like to see a list of the services which we are offering please visit:

<http://borst-automation.com/services/services.htm>

### Further Questions?

We would be happy to answer your further appreciated questions. Please send email to: [info@borst-automation.de](mailto:info@borst-automation.de).

### Printable Newsletter

For your convenience we have provided a pdf version of the newsletter on our homepage. You will get it by pointing your browser to

<http://borst-automation.com/newsletters/BorstAutomationNLmay2010.pdf>.

Best regards

Walter Borst
